- 90%+ Students with internship experience

- Dialogue with Executive Series
- Online job board and application platform
- Individual career advising sessions
- Company visits
- Job hunting skills workshops
JOINT-SCHOOL PROGRAMS:

By integrating multiple knowledge domains, the programs enhance the breadth and depth of students’ learning experience, strengthening our business graduates’ competitiveness in today’s ever-changing business world.

**In collaboration with the School of Engineering and the School of Science:**

**BACHELOR OF SCIENCE IN RISK MANAGEMENT AND BUSINESS INTELLIGENCE (BSc RMBI):**

The BSc RMBI program integrates the study of risk management and business intelligence seamlessly into a one-of-a-kind degree program.

The curriculum combines state-of-art knowledge with professional and personal development to give graduates an edge in grasping comprehensive quantitative and statistical skills, high-quality analytical and problem-solving abilities, as well as business fundamentals.

RMBI students are equipped with the skillset to identify potential risks in advance. Combining that to their knowledge in business intelligence, which comprises a set of methodologies and processes to analyze business data, RMBI graduates manage to formulate strategies for corporates to mitigate loss and facilitate business decisions, planning and projection.

**In collaboration with the School of Science:**

**BACHELOR OF SCIENCE IN BIOTECHNOLOGY AND BUSINESS (BSc BIBU):**

The BSc BIBU program is the first undergraduate program in Hong Kong that amalgamates rigorous training in biotechnology and business practices.

Students are equipped with a solid foundation of essential biotechnical knowledge as well as commerce know-how through the holistic curriculum that cuts across multiple disciplines, including various domains of life science, biotechnology, and foundational business subjects.

The rapidly-growing biotechnology industry in Asia opens up an unprecedented opportunity to BIBU graduates. Biotech firms need talents with business knowledge to manage marketing, licensing and investor relations. Investment banks and venture capitalists are also looking for science talents with a business background for research project valuation and due diligence etc.

[http://bibu.ust.hk](http://bibu.ust.hk)

**In collaboration with the School of Science:**

**BACHELOR OF SCIENCE IN MATHEMATICS AND ECONOMICS (BSc MAEC):**

The BSc MAEC program puts a strong emphasis on both mathematical reasoning and analytical thinking in the conceptuality of economics.

The mathematics courses help shape a rigorous thinking and logical way of doing things. The economics theories come in handy in terms of understanding the global market movements.

The unique synergy from both fields equips our students with the quantitative skills and sophistication to work with world-leading banks and financial corporations. Graduates are also ready for postgraduate studies with ample academic preparation and solid research methodology training.
